Re: Oak Vista Water Line
Addendum No. 1

To All Bidders:

Addendum No. 1 is being issued to provide additional clarification regarding items discussed during the pre-bid meeting on December 11, 2019.

1. Subsequent to discussion with the City, it has been determined that blasting will not be permitted on the project.
2. The project specifications include requirements for AWWA C-110 "full body" domestic fittings. The project will allow for the use of AWWA C-153 "short body" domestic fittings as an approved alternate.
3. Specific attention is directed to Section 010.7 of the specifications, As-built Drawings. The requirement to have horizontal and vertical points of intersection, as well as at 300' intervals along runs of straight grades, surveyed by an RPLS prior to backfilling will be enforced for this project. This is paid under the pay item 010.17.4 "As-built Drawings".

The items addressed in this Addendum are intended to be complementary and in addition to all other requirements stated in the Contract Documents. These requirements are considered subsidiary to the pay items provided for in the Unit Price Schedule, and no separate measurement or payment will be allowed for any requirement listed in this Addendum.

Please be sure to acknowledge receipt of this addendum via email.

If you have any questions or comments, please feel free to contact me at starym@kcengineering.com.

Sincerely,

K.C. Engineering, Inc.
